FORWARDED BY ORDER OF THE LIEUTENANT GOVERNOR OF BENGAL
BENGAL SECRETARIAT LIBRARY

ANNUAL REPORT

ON THE

# REFORMATORY SCHOOL

AT

# BAREILLY

***FOR THE YEAR 1894.***

ALLAHABAD:
NORTH-WESTERN PROVINCES AND OUDH GOVERNMENT PRESS.
1895.

No. 3086 of 1895.

From

Sir JOHN W. TYLER, Kt., C.I.E., M.D., F.R.C.S.,

Inspector-General of Prisons,

North-Western Provinces and Oudh,

To

The SECRETARY to GOVERNMENT,

North-Western Provinces and Oudh,

Judicial (Criminal) Department.

*Dated Lucknow, the 27th March* 1895.

Sir,

I have the honor to forward herewith the Annual Report of the Superintendent, Bareilly Reformatory School, together with the remarks thereon of the Committee of Visitors and the observations of the Commissioner, Rohilkhand Division.

2. The buildings are all in a satisfactory state and the boys are in excellent health and condition. The Superintendent experienced great difficulty in enforcing rigid discipline during the year owing to the weakness of a succession of Deputy Superintendents and the Head Warder.

3. A change of officials has now been effected and the past evils have been remedied. The present Deputy Superintendent is a man of good promise; and the new warder has restored discipline and order, so that I have every reason to anticipate an improvement in the general management of the institution.

4. The garden receives great attention, but the land under cultivation is scarcely sufficient for the requirements of the increased population.

5. It is satisfactory to learn that the boys who have been started in life from this Reformatory are well reported on.

I have the honor to be,

Sir,

Your most obedient servant,

J. W. TYLER, Kt., C.I.E.,

*Inspector-General of Prisons,*

*N.-W. Provinces and Oudh.*

BENGAL SECRETARIAT LIBRARY

No. $\frac{30}{1\text{-}1\text{-}3}$ OF 1895.

FROM

THE SUPERINTENDENT,
REFORMATORY SCHOOL,
BAREILLY,

TO

THE INSPECTOR-GENERAL OF PRISONS,
NORTH-WESTERN PROVINCES AND OUDH,
LUCKNOW.

*Dated Bareilly, the 15th January* 1895.

SIR,

I HAVE the honor to submit the Annual Report on the Bareilly Reformatory School for the year ending 31st December 1894.

2. **Accommodation.**—The school has accommodation for 232 boys, with separate cubicles for each, besides hospital accommodation for 24. No additions or alterations have been made to the buildings during the year, and all of them are in good repair. A sum of Rs. 165 was spent on ordinary annual repairs during the year.

3. **Admissions and discharges.**—On the 31st December 1893 there were—

| | |
|---|---|
| Remaining in the school ... ... ... ... ... ... | 193 |
| Admitted during the year ... ... ... ... ... ... | 65 |
| Total ... | 258 |

Of the above there were—

| | |
|---|---|
| Transferred to jail by order of Government ... ... ... .. | 6 |
| Released by order of Government ... ... ... ... ... | 3 |
| Released on appeal ... ... ... ... ... ... | 1 |
| Discharged on completion of sentence ... ... .. ... ... | 44 |
| Total ... | 54 |
| Remaining on 31st December 1894 ... ... ... ... ... | 204 |

The daily average number of boys was 207·87. Of the 65 boys received during the year, 57 were still under detention on the 31st December 1894.

Since the opening of the school on the 1st April 1889, the number of admissions and the daily average numbers in successive years have been as follows :—

| Years. | Admissions. | Daily average strength. |
|---|---|---|
| 1889 (nine months only) ... ... ... ... | 88 | 36·86 |
| 1890 ... ... ... ... ... ... | 64 | 85 30 |
| 1891 ... ... ... ... ... ... | 34 | 123·65 |
| 1892 ... ... ... ... ... ... | 48 | 142 13 |
| 1893 ... ... .. ... ... ... | 55 | 172 12 |
| 1894 ... ... ... ... ... ... | 65 | 207 87 |

Of the nine boys transferred to jail or released by Government, four were lads whose parents were living and who had been sent to the Reformatory on a first conviction; two were considered too old for admission; one belonged to a criminal caste; and two were boys of incorrigible character, who had committed an aggravated assault on the Deputy Superintendent.

4. **Particulars regarding boys admitted during the year.**—In statement A. a list is given of all the boys received during the year with full particulars regarding each, and also an abstract of it showing the (*a*) caste, (*b*) ages, (*c*) districts, (*d*) crimes, (*e*) sentences, (*f*) education, and (*g*) previous convictions of the new admissions. The abstracts giving the ages, the terms of detention ordered, and the previous convictions of the new admissions show that the orders of Government on these points are still occasionally overlooked. Abstract (*d*) shows that 61 of the 65 admissions were sentenced for offences against property.

5. **Daily routine.**—The daily routine of the school is as follows :—

| | | | | |
|---|---|---|---|---|
| From | 6 to | 8 | A.M. | school. |
| „ | 8 „ | 9 | „ | drill and gymnastics. |
| „ | 9 „ | 10 | „ | work. |
| „ | 10 „ | 11 | „ | bath and morning meal. |
| „ | 11 „ | 2 | P.M. | work. |
| „ | 2 „ | 3 | „ | play. |
| „ | 3 „ | 5 | „ | work. |
| „ | 5 „ | 6 | „ | bath and evening meal. |
| „ | 6 „ | 8 | „ | voluntary school. |

This routine is altered somewhat during the very hot weather, when the morning hours are given to work, and school is held in the middle of the day; at that time also an extra hour for rest is given.

6. **Health.**—The health of the boys was fairly good throughout the year, although the number of admissions into hospital, and the daily average number of sick, were both considerably higher than in 1893. At the beginning of the hot weather there was an outbreak of influenza; later, a few cases of mumps occurred. During the rainy season, and for some time afterwards, there were a good many cases of mild intermittent fever. The total number of admissions into hospital was 255, of which 149 were for intermittent fever, and 40 for influenza. The daily average number of sick was 9·86. There has been no death in the school for the last three years. The diseases which caused the admissions into hospital are shown in statement B.

7. **Weighments of boys.**—Statement C. shows the weights of the boys on admission on the 1st January and 1st July 1894, and on 1st January 1895. Three boys show a slight falling off in weight, of whom two were under treatment in hospital at the end of the year, and the other had been only recently discharged from hospital. Two other boys, who had been in hospital for a long time, were exactly of the same weight as at the beginning of the year. All the other boys had gained weight, the increase varying from a few chattaks to upwards of 11 seers in one case. All the boys are weighed at the beginning of every quarter; and those who are found not to be gaining steadily in weight, every month. All weakly boys and those recently discharged from hospital are given a daily allowance of milk or ghi in addition to the ordinary ration, are kept only at light work, and are sent to bed at six o'clock instead of being allowed to go to "voluntary school."

8. **Drill, gymnastics and play.**—There is a large playground attached to the school with a complete set of gymnastic apparatus. All the boys have drill and gymnastics on alternate days under the Deputy Superintendent and the head warder, an hour daily being allotted to these. The bigger lads make a very creditable appearance at both drill and gymnastics; and the effect of this training in improving the physique of all is most noticeable. An hour daily is allowed for play.

9. **Discipline and conduct of boys.**—It has been a great misfortune for the school that during the year no fewer than five Deputy Superintendents have been in charge. Two of these men were grossly incompetent, and none of them were sufficiently long in charge to become thoroughly acquainted with their work. I am hardly putting it too strongly when I say that for a very considerable part of the year the Reformatory might as well have been without a Deputy Superintendent altogether. To make matters worse, the post of head warder, the official on whom next to the Deputy Superintendent the discipline of the school depends, was held by four different men. During the earlier months of the year the discipline became very slack, and matters finally culminated in an attack on a Deputy Superintendent who had just been appointed, and on the English writer. These officials while superintending the distribution of a meal were set upon by two boys of incorrigible character with sticks taken from the cook-house; other boys joined in the attack, and the Deputy Superintendent and the writer retreated to the main gate, a warder who was with them giving

no assistances. The alarm being given, the warders off duty came in, and the boys who had joined in the disturbance dispersed. The two ringleaders who had been constantly in mischief, were flogged and sent away from the school, and the others suitably punished. After this outbreak matters gradually improved, and during the last six months of the year there was no fault to be found with the discipline.

With the exception of this disturbance and of an escape from the school, there were no offences of a very serious character. The number of punishments (152) was considerably higher than in the previous year (105), but they were mostly for comparatively trivial offences, such as might be expected from lads of their age.

The following statement shows the offences reported during the year and the punishments inflicted :—

| Offences. | Flogging. | Hand-caning. | Solitary cells with penal diet. | Solitary cells. | Morning meal stopped. | Reduction from monitorship. | Suspension from monitorship. | Gunny clothing. | Gratuity stopped. | Change of labour. | Locked up at play hour. | Warned. | Total. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Offences relating to work ... ... | ... | 13 | 1 | ... | 2 | 1 | ... | ... | 2 | 18 | ... | 17 | 54 |
| Breaches of discipline ... ... | ... | 3 | ... | 30 | ... | 2 | 1 | ... | 1 | 6 | 1 | ... | 44 |
| Petty thefts ... ... | 1 | 4 | 3 | 6 | ... | ... | ... | ... | 4 | 3 | ... | ... | 21 |
| Destroying school property ... | 1 | 9 | ... | 5 | ... | ... | ... | 2 | 1 | ... | ... | ... | 18 |
| Fighting and assaults ... ... | 8 | ... | ... | ... | ... | ... | ... | ... | ... | 3 | ... | 1 | 12 |
| Insubordination ... ... | 2 | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | 2 |
| Escaping ... ... ... | 1 | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | 1 |
| Total ... | 13 | 29 | 4 | 41 | 2 | 3 | 1 | 2 | 8 | 30 | 1 | 18 | 152 |

10. **Marks and gratuities** —Marks and gratuities are given for conduct, diligence in school, and work in the factories. A boy who earns full marks is entitled to an anna a week, and a monitor to two annas; of his earnings he is allowed to expend half, and the other half is placed to his credit in the Savings Bank, to be given to him on his release. The average number of boys earning gratuities was 88, and the average weekly earnings Rs. 4-9-3. The amount of gratuities awarded during the year was Rs. 238-3-9, and the amount sent to the Savings Bank Rs. 107-13-6.

The account of the boys' gratuity fund for the year is as follows:—

| | | Rs. | a. | p. |
|---|---|---|---|---|
| Balance at end of 1893 ... ... ... ... ... | | 273 | 11 | 9 |
| Earned during 1894 ... ... ... ... ... | | 238 | 3 | 9 |
| Interest during 1894 ... ... ... ... ... | | 1 | 1 | 3 |
| Total ... | | 513 | 0 | 9 |
| Paid to boys on release Rs. 182 3 9<br>Purchases „ 120 5 9 ... ... ... ... | | 302 | 9 | 6 |
| Balance on 31st December 1894 ... ... ... ... | | 210 | 7 | 3 |

11. **Escape.**—One boy, who had been admitted only a short time before, ran away on the 26th of November. He had been allowed to hide himself in one of the barracks when the other boys went to "voluntary School" in the evening; after dark he dragged out his cot, placed it against the enclosure wall where it was only 11 feet high and got off. He went to his home in the Unao district, and was brought back a few days later. The head warder, through whose carelessness the boy had been allowed to be at large, was dismissed.

12. **Education.**—All the boys attend school for two hours in the morning, and in the evening from 6 to 8 o'clock there is "voluntary school," which all are permitted to attend, except new admissions, boys who are very young and in delicate health, and those who are badly conducted. Only two teachers are sanctioned; but the English writer, in addition to his office work, teaches the more advanced lads in the Nagri section. The Muhammadans are taught Urdu, and the Hindus Nagri; the latter section being in two divisions. The average number of boys in the Urdu section was 51·20, and in the Nagri sections 156·67.

The progress made by the boys in education is, considering the time devoted to it, very satisfactory. Nearly every boy before his discharge is able to read and write fairly well, and knows the simple rules of arithmetic; while the more intelligent can read any Urdu or Nagri book at sight; can write from dictation in either character; know arithmetic as far as compound proportion and fractions and are acquainted with the elements of Geography and the Outlines of Indian History. At "voluntary school" no task work is given; recitations from the Koran and the Rámayána are taught; stories are read aloud by the bigger boys, and such as choose to do so, read by themselves. The Rev. Dr. Scott examined the school on the 12th May, and again on the 3rd November 1894. His report on the second examination is given in the appendix.

13. **Industrial training.**—Ever since the opening of the Reformatory this has been conducted on the lines laid down by Sir Auckland Colvin, that all the boys should be trained to ordinary agricultural labour, and that an attempt should be made to teach every one at least one trade. This is the only Reformatory in India where this double training is attempted, and indeed the only one in which agricultural work on any considerable scale is carried on. The rule hitherto has been that every boy should be kept at some trade for the first six months after admission, and that afterwards, provided his conduct had been satisfactory, he should be allowed to work on the farm and in the factories on alternate weeks. As might be expected, however, a very considerable number of boys show no aptitude whatever for any trade, being fitted only to be "hewers of wood and drawers of water." Boys of this class, not only learn nothing in the factories, but they waste materials, and what is worse, get into idle habits. I think therefore that for the future in all cases where boys have made no progress in learning a trade within a reasonable time (say one year), the attempt should be given up, and that these boys should be kept at agricultural work, and should also be made to do all the hard work of the Reformatory, such as drawing water, sweeping and removing rubbish, &c. A much larger number of boys could be employed on the farm than have hitherto been available; indeed during the busy seasons of the year the work is always in arrears.

The farm has an area of 37½, and the garden of 8½ acres. The soil is unfortunately very light and unproductive, and the farm does not yield very profitable results. An attempt is made to grow as great a variety of crops as possible, although the soil is not very suitable for some of them. Juár, bajrá, maize, arhar, urd, moth, lobia, gram, cotton, wheat and barley, are all cultivated. In the garden all the common country and English vegetables are grown. A few boys who have a taste for gardening have been taught grafting fruit trees, &c.

In selecting trades to be taught we have not only to consider what is likely to be useful to the boys in after-life, but also whether sufficient work can be got to keep the factory going. Blacksmith's work, carpentry, darie-weaving and cloth-weaving have, at different times, been tried, but have had to be given up for want of sufficient orders. The trades now taught in addition to farming and gardening are, canework, shoemaking, tailoring and carpet-weaving. Of these the most satisfactory is the canework; financially it is a success. Sufficient orders are received to keep all hands employed; and although it is not likely that any large number of the boys employed in it will earn a livelihood in after-life by wickerwork, they are all trained to be neat-handed, and to most of them it will be an advantage to be able to make baskets, &c.

In the tailor's shop all the boys' clothing is made; but few outside orders are received, and there is consequently little cash profit. A sewing-machine was purchased last year, and several boys are very expert in using it.

Shoe-making has been carried on since the Reformatory was opened, but it has not proved as successful as I had hoped. A number of trade instructors have been tried, but we have failed to secure one who was at the same time trustworthy and a competent workman. It is especially in this factory that materials are wasted and made away with. A fair number of orders are received, but large numbers of shoes are returned as misfits, and have to be sold for less than the cost of the materials. A number of boys have been trained to be really good shoe-makers: but I find that of ten boys discharged from the school who had been taught this trade, only two now earn their living by it. I should have no hesitation in advising this industry to be put a stop to if I could suggest anything suitable to take its place.

Carpet-weaving was started in July last at the request of Sir John Tyler. Only a small number of boys have been taught this industry. All the qualins made have been sold.

14. **Financial results of the working of the farm and factories.**—The net profit for the year amounted to Rs 802-15-10, as shown below :—

CREDITS.

| | Rs | a | p |
|---|---|---|---|
| Manufactured articles in store on the 31st December 1894 ... ... | 126 | 8 | 0 |
| Raw material ditto ... ... | 327 | 0 | 11 |
| Amount of outstanding bills on 31st December 1894. .. | | .. | |
| Plant and machinery in store ditto ... | 360 | 1 | 6 |
| Amount paid into the treasury during the year 1894 ... .. ... | 1,780 | 2 | 3 |
| Value of articles supplied for Government purposes and adjusted by transfer accounts only... ... . | 10 | 1 | 0 |
| Grand Total ... | 2,603 | 13 | 8 |

DEBITS.

| | Rs. | a. | p. |
|---|---|---|---|
| Manufactured goods in store on the 1st January 1894 ... ... | 92 | 10 | 6 |
| Raw material ditto . ... | 88 | 11 | 9 |
| Amount of outstanding bills ditto ... | ... | | ... |
| Plant and machinery in store ditto ... | 364 | 2 | 6 |
| Amount drawn from the treasury during the year 1894 ... | 1,171 | 7 | 7 |
| Amount adjusted by transfer account during 1894 ... ... | 83 | 13 | 6 |
| Grand Total ... | 1,800 | 13 | 10 |
| Profit ... | 802 | 15 | 10 |

The following table shows the average numbers of boys employed in each industry and the profit earned.—

| Industry. | Average number employed. | Profit. Rs. | a. | p. |
|---|---|---|---|---|
| Farm and garden... ... ... | 69·08 ... | 214 | 6 | 10 |
| Shoe-making ... ... ... | 14 70 ... | 99 | 4 | 11 |
| Cane-work ... ... ... | 54 04 ... | 415 | 6 | 10 |
| Tailoring ... ... ... | 11·79 ... | 59 | 5 | 9 |
| Carpet-weaving ... ... ... | 3 57 ... | 14 | 7 | 6 |

The *cash* profit, that is, the difference between the amount drawn from and the amount remitted to the treasury, including countersigned invoices, was Rs. 534-14-2. The small amount of the cash profit is accounted for by there having been a heavy expenditure for material, much of which was still in stock at the end of the year.

The results do not compare favourably with those of some of the other reformatories in the country, especially with those of Bengal. There, however, the profits are derived mainly from Government orders for printing, book-binding, &c. The objection to such work in a reformatory is that only a very small proportion of the boys after their release follow the trade they have been taught. Agriculture and gardening, which are without doubt the industries most suitable for a reformatory in this part of the country, are never likely to yield large returns, the soil of the farm and garden being very unproductive. Of the trades taught in the factories it is only for the wicker-work that sufficient orders are received to allow it to be carried on on a fairly large and remunerative scale. Very little of the work is of a nature to admit of a

task being laid down; and the only check on it is the vigilance of the Deputy Superintendent and the trade instructors. Many of the inmates of the school are little more than children: and not only add nothing to the profits, but actually diminish them by spoiling materials.

I think it would be a mistake to lay very great stress on the amount of profit shown. If this is done, the object of the Reformatory is apt to be lost sight of, and the officials are urged to attach undue importance to it, and to strive after showing a large return as in itself a matter of consequence, instead of being only one of a number of tests that must be applied to judge of the successful working of this institution.

15. The following statement shows the expenditure under all heads, excluding factory and building charges, as compared with that of the previous year:—

| Name of heading. | 1893. | | 1894. | | Increase. | Decrease. |
|---|---|---|---|---|---|---|
| | Total amount. | Per-head of average strength. | Total amount. | Per-head of average strength. | | |
| | Rs. a. p. | Rs. a. p. | Rs a. p. | Rs. a. p. | Rs. a. p. | Rs. a. p |
| Pay of establishment ... | 4,228 8 11 | 24 9 ½ | 3,993 5 10 | 19 3 5 | ... | 5 5 7½ |
| Rations ... ... | 3,430 7 3 | 19 14 10 | 3,306 8 7 | 15 14 6 | ... | 4 0 4 |
| Clothing and bedding .. | 606 2 7 | 3 8 4 | 556 4 3 | 2 10 9 | ... | 0 13 7 |
| Hospital medicines ... | 1 7 11 | 0 0 1½ | 3 7 0 | 0 0 3 | 0 0 1½ | ... |
| Hospital diet ... | 223 11 8 | 1 4 9 | 221 13 7 | 1 1 0 | ... | 0 3 9 |
| Service stamps ... | 21 0 0 | 0 1 11 | 24 8 0 | 0 1 11 | ... | ... |
| Country stationery ... | 7 7 9 | 0 0 8 | 6 0 0 | 0 0 6 | ... | 0 0 2 |
| Contingencies ... | 590 7 4 | 3 6 10 | 710 2 1 | 3 6 8 | ... | 0 0 2 |
| Telegraph charges ... | 1 0 0 | 0 0 1 | ... | ... | ... | 0 0 1 |
| Travelling allowance ... | 4 8 6 | 0 0 5 | 4 9 0 | 0 0 4 | ... | 0 0 1 |
| Total ... | 9,114 13 11 | 52 15 0 | 8,826 10 4 | 42 7 4 | 0 0 1½ | 10 7 9½ |

The expenditure per head of average strength was Rs. 42-7-4 as compared with Rs. 52-15-0 for 1893. There has been a large saving under "pay of establishment" and "rations," and small savings under the other heads.

As regards economical management the Bareilly Reformatory comes out well when compared with the other institutions of the same kind in the country. In the reports for 1893 of the other reformatories which have been forwarded to me, the expenditure per head is as follows:—

| Name. | Average population. | Expenditure per head of average strength. |
|---|---|---|
| | | Rs. a. p. |
| Alipore ... ... ... ... | 211·34 | 99 15 0 |
| Hazaribagh ... ... ... | 302·38 | 73 1 5 |
| Yerrowda ... ... ... | 100·8 | 110 10 3 |
| Chingleput ... ... ... | 150 | 107 13 7 |

16. **Particulars regarding boys discharged from the school.**—Inquiries through the Magistrates of the districts in which the boys reside are made half-yearly for three years, regarding all who have been discharged from the school. The substance of the latest reports of all boys discharged up to the end of last November is given in statement D. Reports about five boys released in December last have not been asked for as they would be of little value.

Of the fifty boys shown in the statement, two are now in jail. No reports have been received in the case of eight, of whom it is known that one absconded with a sum of money with which he had been entrusted, and that four have gone into

Native States. Of the other forty, twenty-eight were reported to be living with their parents or other relations, and twelve on their own account; thirty-eight of the forty were reported to bear a good character, and two to be of doubtful character.

The occupations followed by the forty boys reported on were as follows :—

| | |
|---|---|
| Agriculture ... ... ... ... ... | 9 |
| In service ... ... ... ... ... ... | 9 |
| Keeping shops ... ... ... ... ... | 4 |
| Gardening ... ... ... ... ... ... | 3 |
| Tailoring ... ... ... ... ... ... | 3 |
| Shoe-making ... ... ... ... ... | 2 |
| Wickerwork ... ... ... ... ... | 2 |
| Working as labourers ... ... ... ... ... | 3 |
| "Seeking employment" ... ... ... ... | 1 |
| Carpentry ... ... ... ... ... | 1 |
| Wood-carving ... ... ... ... ... | 1 |
| Yajmání ... ... ... ... ... | 1 |
| Attending school ... ... ... ... ... | 1 |

These returns are not on a sufficiently large scale as yet to allow conclusions of much value to be drawn from them; but as far as they go the results are fairly satisfactory. As regards the occupations followed by the boys after their discharge, the most noticeable point is the small number who follow any trade. This suggests doubts as to whether we are on the right tack in attaching to teaching all the boys trades the importance which we have hitherto done. Mr. Gollan, the Superintendent of the Saháranpur Botanical Gardens, kindly gave employment to three boys on their discharge from the Reformatory. Of these one afterwards returned to his friends in the Gorakhpur district, and the other two were still employed in the gardens at the end of the year, and were reported to be doing well.

17. **Conduct of officials.**—The Deputy Superintendent, who was in charge at the beginning of the year and of whose work I was unable to speak favourably in my last report, was allowed to go in February. He was succeeded by a retired soldier, a man of good but somewhat weak character. He disliked the work and considered the salary insufficient, and soon after his appointment he asked to be relieved as soon as a successor could be found. Number three turned out to be a confirmed sot, and was dismissed after a fortnight. On the 17th May John Harris, a native Christian English writer in the Bareilly Central Jail, was appointed. He set to work with praiseworthy zeal to improve the discipline of the school, which had by that time become sufficiently lax; but a few days after his appointment he was, as already reported, set upon and mobbed by a few of the more evil-disposed boys. It was not considered that his conduct on that occasion was such as to give promise of his being a man of sufficient character to exercise control in the school, and he was relieved on 4th November 1894. Harris considered, perhaps with some justice, that he was being made a scapegoat for the sins of his predecessors; it is therefore only fair to him to say that his management after the first unfortunate incident was thoroughly satisfactory, and that he succeeded in introducing excellent discipline. The present Deputy Superintendent, Mr. Strong, was a Color-Sergeant in the East Surrey Regiment, from which he comes with a very high character for good conduct and sobriety. He is heavily handicapped at the outset by his defective knowledge of the vernacular, and presumably also of a native character, while of course the work is absolutely new to him. So far he has shown himself steady, hardworking and reliable; and I have no doubt that if he remains long enough to become thoroughly acquainted with his duties he will prove a success. It is sincerely to be hoped that he will do so. It is hopeless to expect that the institution can be successfully managed unless it is under the charge of a thoroughly competent and trustworthy Deputy Superintendent.

The English writer has done his work well, both as clerk and as senior teacher; and the other two teachers have also worked satisfactorily.

Of the trade instructors, the one in charge of the cane-factory deserves special credit; the others do fairly well.

During the year there have been four head warders, of whom one was transferred, one reduced and one dismissed. The present head warder is an old soldier, and promises to be more efficient than his predecessors. The warders are all well-conducted and fairly efficient.

18. The committee of visitors met eight times during the year, and there were eight inspections by official and non-official visitors. The Inspector-General of Prisons visited the school six times during the year, and the Inspector-General of Civil Hospitals and Dispensaries once.

I have the honor to be,

SIR,

Your most obedient servant,

E. MAIR, SURG.-LIEUT.-COL.,

*Superintendent, Reformatory School, Bareilly.*

# APPENDICES.

URDU DEPARTMENT.

I CLASS.—Roll 16; present 15; sick 1. Eight lads have been discharged from this class during the year; 6 have been promoted to it from below.

1. *Reading.*—Have finished the book in which I found them in May. Are now revising Risala-e-Nazm-wa-Nasar, and all, excepting one, read well. Some lads advanced to Maktub-i-Ahmadi; read fairly well to page 16.

2. *Dictation.*—The advanced lads of the class write and spell fairly well; the rest not so well.

3. *Arithmetic.*—Six lads are now in compound proportion who were in simple proportion in May. Four slates right. Nine lads, promoted to this class from below, are in compound division : all slates correct but one, with a slight error.

4. *Geography.*—All have passed from the map of India and are now on the map of the World, and are acquiring some familiarity with it.

II. CLASS.—Roll 11; present 11. Two have been promoted from below.

1. *Reading.*—Five lads have been advanced to the 5th Book, and, except 1, read fairly. Six have been advanced to Chand Pand, of whom 4 read well.

2. *Dictation.*—Half the boys did well; the others need training.

3. *Arithmetic.*—All except 2 have advanced well; 4 are now in compound subtraction : 3 slightly wrong; 5 are in division : 4 slates right; 2 are still in multiplication: slates right.

4. *Geography*—Are in the map of India and show considerable familiarity with the subject.

III CLASS.—Roll 24 : all present.

1. *Reading.*—The lads of the class that were in the 2nd Book in May have been advanced to the II Class. Only 2 lads now in the 2nd Book. Do not read well. The others are in the I Book. Two dull lads are trying to learn the Nagri character, not being able to master the Urdu.

2. *Arithmetic.*—Nine lads are in simple addition : slates all right. The others are earning to count and committing tables in the usual way.

HINDI DEPARTMENT.

I CLASS. .—Roll 36; in 2 section : 23 lads have been discharged.

*Section A.*—Roll 15; present 14; duty 1.

1. *Reading.*—Have finished 40 pages of Gutká, Part III. Read fairly well.

2. *Dictation.*—All slates correct in spelling ; writing fair.

3. *Arithmetic.*—Since May have finished compound proportion, least-common-multiple, greatest common measure, and are now in common fractions—at addition. Class doing fairly. Errors in only 4 slates.

4. *Geography.*—Are at the map of the World. Am pleased to find that many of the lads are familiar with the entire outline.

---

*Section B.*—Roll 21 ; present 17 ; sick 1 ; duty 3. This section has been advanced from below since May.

1. *Reading*—Have done 40 pages of Gutká, Part II. Read well in the main.

2. *Dictation.*—Five slates not quite complete. Most write fairly.

3. *Geography.*—In May had just taken up the map of the World ; meantime in outline have gone over all the countries. Many of them are familiar with the map.

4. *Arithmetic.*—In May were in compound division; are now in simple proportion. Are getting on fairly well : only 4 slates wrong.

---

II Class.—*In 2 Sections.* Roll 51.—*Section A.* promoted from former Section B.

---

*Section A.*—Roll 24 ; present 20 ; in hospital 4.

1.—*Reading.*—Now in Gutká, Part I ; prose finished. Many of the boys read fairly, but should have difficult words explained to them more carefully.

2. *Dictation.*—Only 4 slates had slight mistakes.

3. *Arithmetic.*—Simple division finished. Some are advanced to compound addition. Only 2 slates wrong.

4. *Geography.*—Are on the map of the World and are doing well.

---

*Section B.*—Roll 27 ; present 23 ; sick 4.

1. *Reading.*—In May had just finished the 2nd Book ; are now nearly done with the 3rd Book. Some of the lads do not read well. Should have hard words explained.

2. *Dictation.*—Four slates had slight mistakes ; Two could write but little.

3. *Arithmetic.*—Simple multiplication. Six slates wrong, but understand the work.

4 *Geography.*—Are on the map of India. A few are dull and have not done much ; the rest are getting on fairly well.

---

III Class.—2 Sections. Roll 63. Most of the lads admitted this year.

*Section A.*—Roll 21 ; present 19 ; sick 2.

1. *Reading.*—Have nearly finished the 2nd Book. Read well.

2. *Arithmetic.*—In May were learning to count. Part are now in simple addition, part in subtraction. All slates right.

*Section B.*—Roll 43 ; present 36 ; sick 7.

1. *Reading.*—1st Book in several stages.

2. *Arithmetic.*—Counting and multiplication table. Was surprised to find how well some had the table up to 17.

## General Remarks.

1. In May last I made a note of the place the lads were at in their studies, and this examination shows that for the time devoted to study they have done very well in the main. Not much can be made of a very few.

2. The improvement most marked is in geography. Good maps are now supplied, and the lads are learning the main points of the maps.

3. Some systematic attention might be given to history as the boys advance. This would go well with their knowledge of geography.

4. A good many boys have already gone out with a fair knowledge of the common branches, and the school is certainly serving its purpose well.

T. J. SCOTT,
*Principal, Theological College, Bareilly.*

## STATEMENT D.

*Particulars regarding boys discharged from the Reformatory.*

| Name and caste. | Date of discharge. | Time passed in Reformatory. | Conduct while in Reformatory. | Trade learnt in Reformatory. | Last report since discharge. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| Gherás, Kurmi | 12th September 1892 | 3 years | Excellent | Carpentry and agriculture | Lives with his father; reported to bear a good character; is a cultivator. |
| Amar Singh, Brahman | 18th ditto | 3 years 5 months and 17 days. | Indifferent | Ditto | Supports his mother and sister; bears a good character; keeps a shop for sale of grain |
| Tassadduk Husain, Mughal | 19th ditto | 3 years 2 months and 22 days. | Fairly good | Dari and carpet-weaving and agriculture. | Bears a good character, is chaprási to the Civil Surgeon of Hardoi. |
| Sangam, Brahman | 3rd October 1892 | 3 years and 21 days. | Good | Canework and agriculture | Was employed as warder at Budaun Jail Absconded with Rs. 50, which had been entrusted to him, and has not since been heard of. |
| Ghurbin, Kahár | Ditto | 2 years 11 months and 14 days. | Fairly good | Ditto | Bears a good character; is employed in the Reserve Warder Guard at Bareilly District Jail. |
| Raghubir Rae, Thakur | 10th October 1892 | ditto | Excellent | Carpentry and agriculture | Bears a good character; employed as constable in Bareilly Police |
| Nathá, Malah | 14th November 1892 | 3 years 4 months and 17 days. | Fairly good | Ditto | Lives with an uncle but is frequently absent from his home for long periods, and is consequently looked upon with suspicion. When at home makes baskets |
| Abdullah, Jolába | 3rd April 1893 | 3 years 9 months and 6 days. | Good | Dari-making, cloth-weaving agriculture and mason's work | Bears a good character; employed as Building Warder at Gorakhpur Jail. |
| Ramcharan, Nau-Muslim | 19th August 1893 | 4 years | Invariably bad | Shoemaking and agriculture | Was imprisoned for criminal breach of trust soon after his discharge from the Reformatory |
| Ratná, Chamár | 30th ditto | 4 years 2 months and 2 days. | Fairly good | Ditto | Lives with his father; bears a good character: works as a tailor. |
| Nanak, Kayesth | 2nd September 1893 | 3 years | Excellent | Canework and agriculture | Lives with an uncle; bears a good character; makes wickerwork. |
| Hira I, Kerár Thakur | 31st March 1894 | 5 do. | Good | Ditto | This boy lives in the Gwalior State, and no answer has been received to the inquiries which have been made. |
| Mohan Lal, Kerár Thakur | 28th April 1894 | 5 do. | Excellent | Ditto | Ditto ditto ditto |
| Nazir Khan, Pathan | 19th May 1894 | 5 do. | Fairly good | Tailoring and agriculture | Lives with his mother; character good; works as a tailor |
| Daya Ram Chamár | 24th ditto | 5 do. | Good | Shoemaking and agriculture | Is reported by the Magistrate of Agra to have gone to the Dholpur State. |
| Doongar, Kahar | 24th ditto | 5 do. | Do. | Canework and agriculture | Bears a good character; works as a coolie in Bareilly. |
| Gharibe, Brahman | 21st June 1894 | 5 do. | Do. | Ditto | Lives with his step-father; bears a good character; is a cultivator. |
| Umrao Singh, Thakur | 25th ditto | 5 do. | Fairly good | Ditto | Lives with his father; bears a good character; is a cultivator |
| Debi Sahai, Baná | 26th ditto | 5 do. | Excellent | Dari and carpet-making, tailoring and agriculture. | In September last this boy was employed by a contractor in Jhánsi He is now believed to be in the Gwalior State. |
| Perma, Khangar | 26th ditto | 5 do. | Good | Canework and agriculture | Lives with his brother; bears a good character; is a cultivator. |
| Bhagwan Din, Brahman | 26th ditto | 5 do. | Do. | Canework, dari-weaving and agriculture. | Lives with his mother; bears a good character; does Yajmani. |
| Gowri Shanker, Khattri | 26th ditto | 5 do. | Do. | Canework and agriculture | Lives with his parents; bears a good character; is now attending the High School at Moradabad |
| Mirá Bakhsh, Teli | 26th ditto | 5 do. | Indifferent | Cloth weaving and agriculture | Bears a good character; is employed in the Public Gardens at Bareilly. |
| Babbu, Darzi | 26th ditto | 5 do. | Bad | Shoemaking and agriculture | Sentenced to five years' imprisonment on 17th October 1894, under sections [illegible], Indian Penal Code. |
| Gaya, Koeri | 26th ditto | 5 do. | Fairly good | Canework and agriculture | No report received. |

STATEMENT D.

*Particulars regarding boys discharged from the Reformatory*—(concluded).

| Name and caste. | Date of discharge. | Time passed in Reformatory. | Conduct while in Reformatory. | Trade learnt in Reformatory. | Last report since discharge. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| Kalpú, Ahír | 26th June 1894 | 5 years | Fairly good | Canework and agriculture | Lives with an aunt; character good; works as a labourer. |
| Habbu, Pathan | 26th ditto | 5 do. | Good | Shoemaking and agriculture | Lives with his parents; bears a good character; works as a shoemaker. |
| Ram Singh, Chamar | 26th ditto | 5 do. | Indifferent | Ditto | Lives with his parents; bears a good character; is a cultivator. |
| Gulshera, Nan-Mussalam | 26th ditto | 5 do. | Very good | Ditto | Lives with his mother; character good; is a shoemaker. |
| Pir Ali, Jolaha | 3rd July 1894 | 5 do. | Good | Cloth-weaving and agriculture | No report received. |
| Nanhunwa, Mallah | 7th ditto | 5 do. | Fairly good | Canework and agriculture | For a short time after his discharge this boy lived with his friends and worked as a coolie, after that he went to Delhi and has been lost sight of. He was regarded with suspicion. |
| Chhediá Lodha | 10th ditto | 5 do. | Very good | Ditto | Lives with his parents; bears a good character; is a cultivator. |
| Súrja Ram, Jat | 14th ditto | 5 do. | Do. | Ditto | Bears a good character; is employed in Saharanpur Botanical Gardens, and is favourably reported on by the Superintendent. |
| Ram Sarup, Kayesth | 14th ditto | 5 do. | Do. | Ditto | Lives with his uncle; bears a good character; keeps a shop for the sale of provisions. |
| Shahzadá Singh, Thakur | 28th ditto | 5 do. | Good. | Ditto | Bears a good character; is employed in Saháranpur Botanical Gardens, and his reported by the Superintendent to be doing well. |
| Ranjitá, Dhobi | 28th ditto | 5 do. | Do. | Ditto | Lives with his father; bears a good character; is a cultivator, and also does dhobi's work. |
| Mangalia, Lohar | 2nd August 1894 | 5 do. | Do. | Carpentry and blacksmith's work and agriculture. | Lives with his parents; bears a good character; is employed by a contractor. |
| Munnu, Baniá | 11th ditto | 4 do. | Do. | Canework and agriculture | Bears a good character; is employed as a chaprasi in the Survey Department. |
| Nandu, Ahir | 18th ditto | 4 do | Do. | Ditto | Bears a good character; is in the service of a zamindár. |

| Rajwá, Kunjrah | 2nd October 1894 | 5 do. | Do. | Shoemaking and agriculture | Lives with an aunt; character good; is in service. |
| Mittru, Kayesth | 6th ditto | 5 do. | Very good | Canework and agriculture | Lives with his brother; character good; keeps a halwái's shop. |
| Sanwal, Brahman | 16th ditto | 5 do. | Good | Ditto | Lives with his father; character good; reported to be seeking employment |
| Sanwaliá, Mallah | 19th November 1894 | 5 do. | Do. | Ditto | No report received. |
| Kummá, Mallah | 29th ditto | 4 do. | Do. | Canework, dari-weaving and agriculture. | Lives with his uncle; character good; is a cultivator. |

E. MAIR, SURGEON-LT.-COL.,

*Superintendent, Reformatory School, Bareilly.*

No. $\frac{661}{XII-187}$

FROM

THE COMMISSIONER,

ROHILKHAND DIVISION,

TO

THE INSPECTOR-GENERAL OF PRISONS,

N.-W. PROVINCES AND OUDH.

*Dated 16th February* 1895.

Sir,

I HAVE the honor to forward the Superintendent's report on the Bareilly Reformatory School, which has been sent to me for perusal.

2. The daily average strength continues to rise year by year, and at the present rate should, in another year, reach the limit of accommodation.

3. The Superintendent's experiences with deputies have again been unfortunate, and in consequence the section of the report which refers to discipline and conduct is very far from satisfactory. It is understood that things are in better order now, and it is hoped that the improvement may be lasting.

It seems to have been found as difficult to get a good Headmaster as to find a capable Deputy Superintendent.

4. There was a marked decrease in the expenditure per head of average strength.

5. The future of the boys naturally continues to be the most difficult question before the management. So far the reports received of the boys who have been selected may be considered to be, considering their class and antecedents, not unsatisfactory.

I have the honor to be,

SIR,

Your most obedient servant,

H. D. MOULE,

*Commissioner.*

**Remarks by visitors.**

I found everything in this institution in good order.

(Sd.) S. ASHFAQ HUSAIN,

*27th January* 1895. *Member.*

I corroborate fully and agree with the report and the remarks of the Superintendent of the Reformatory School.

(Sd.) KUNWAR LALL BAHADUR,

*Visitor of the Reformatory School,*

*30th January* 1895. *Bareilly.*

# ORDERS OF GOVERNMENT.

No. $\frac{1234}{\text{VI—589C}}$ OF 1895.

FROM

THE SECRETARY TO GOVERNMENT,
N.-W. PROVINCES AND OUDH,

TO

THE INSPECTOR-GENERAL OF PRISONS,
N.-W. PROVINCES AND OUDH.

DATED NAINI TAL, THE 13TH MAY 1895.

SIR,

JUDICIAL DEPT. (CRIMINAL.)

I AM directed to acknowledge the receipt of your letter No. 3086, dated 27th March 1895, under cover of which you forwarded the Report for the year 1894 of the Superintendent of the Reformatory School at Bareilly. Your review might with advantage have been fuller.

2. As was the case last year, 232 boys can be accommodated in the school and 24 in the hospital. At the beginning of 1894, 193 boys were present, while 65 were admitted during its course, giving a total of 258. Out of these, six were transferred to jail and 3 released by order of Government, 1 was released on appeal, and 44 were discharged on completion of sentence. The resultant population at the close of the year was therefore 204. The daily average population was 207·87 as against 172·12 in the year preceding. The discharge of boys on completion of their term has now fairly commenced, and it is improbable that further extensive additions will be made to the average number confined.

3. The increase of admissions into hospital from 187 to 255 is apparently due to an outbreak of influenza. There was no mortality. No notice is taken in the report of the fact that there were four fractures of limbs; a report should be submitted as to the circumstances under which these cases occurred. It is satisfactory to observe that only one boy has lost weight since admission.

4. Economies under the heads of "Establishment," "Rations," and "Clothing and Bedding" caused the total expenditure to decline from Rs. 9,114-13-11 or Rs. 52-15-0 per head of average strength to Rs. 8,826-10-4 or Rs. 42-7-4—a figure which compares very favourably with those of other provinces. To the industries practised last year carpet weaving was added: this is not allowed by the rules, and a reference should be made if it is desired to continue the work. You should also submit separately the suggestion of the Superintendent—which you do not notice in your forwarding letter—that the teaching of trades should be restricted. The cash profit on the various industries fell from Rs. 871-12-2 to Rs. 534-14-2; but the Lieutenant-Governor and Chief Commissioner, while recognising that the inmates should be employed

on remunerative labour, fully accepts the principle that their mental and physical training must take precedence over questions of merely pecuniary profit.

5. There was an increase in the number of punishments from 105 to 152; this is no doubt due to the serious want of discipline which disfigured the administration during the year and which is especially conspicuous in the attack on the Deputy Superintendent and in an escape from the school. It is caused by the frequent changes in the office of Deputy Superintendent and Head Warder, combined with the unsatisfactory character of the incumbents. There have been no less than five Deputy Superintendents in the course of twelve months; and it is difficult to understand how, at least in two instances, the incumbents could ever have been recommended for appointment to an office requiring a high degree of tact and firmness. The reasons for the difficulty in obtaining good men should be reported when you submit the proposals, which it is believed are in preparation, for improving the subordinate staff of the Reformatory. The punishment of imposing gunny clothing is not authorized by the rules of the Reformatory and should be discontinued.

6. The particulars of the history of inmates of the Reformatory subsequent to their discharge are of especial interest in estimating the value of the institution. Details are given as to 43 of the 55 boys who have left the Reformatory, and of these only 4 have relapsed into criminal habits; as to 7 no information is available, while 5 were released in December last. His Honor the Lieutenant-Governor and Chief Commissioner regards these figures as already furnishing some testimony to the utility of the Reformatory for the purpose of converting criminals into respectable members of society.

7. It appears from statement A, the ages, entered in which are the ages as entered in the warrants received with boys, that the rules and principles as to the admissions of boys to the Reformatory are still very imperfectly understood. Government has laid it down as a principle that boys who have reached the age of 13 or who have only been convicted once should not be sent to the Reformatory. This principle is not, it is true, inflexible, and is only laid down for the guidance of courts; but it would appear from the following abstract of statement A that it is often disregarded :—

| 1 | 2 | 3 |
|---|---|---|
| Age on admission. | Number of boys admitted. | Number in column 2 who had not been previously convicted. |
| Under 13 ... ... | 40 | 14 |
| 13 ... ... ... | 13 | 7 |
| 14 ... ... ... | 7 | 3 |
| 15 ... ... ... | 4 | 1 |
| 16 ... ... ... | 1 | 1 |
| Total ... | 65 | 26 |

Again, it is a rule of law that no boy over ten years of age can be confined for a less period than five years, unless he shall sooner attain the age of 18 years. Either the ages as entered in the warrants are incorrect or the sentences of no less than 13 boys are illegal with reference to the rule. The cases of Nos. 307, 310, 323, 343, and 353 have not been brought to the notice of Government by the Committee of Visitors, who will be called on to submit a report as to this point, and to move Government to have the sentences corrected should this be found necessary.

8. I am directed to request you to convey the thanks of Government to the Revd. T. J. Scott for the valuable assistance he continues to give in regard to the education of the boys.

I have the honor to be,

SIR,

Your most obedient servant,

H. W. PIKE,

*Secy. to Govt., N.-W. P. and Oudh.*
